

intimus RECYCLE
Solutions for Sustainable Waste Management

The **intimus® 852** is a centralized shredder and a powerhouse in performance. It has an easy keyboard operation with rotary main switch. The wide slot feed opening is for flat paper and a large hopper accepts an entire bin full of waste. It accepts paper clips, staples, credit cards, CDs, DVDs, floppy disks, passports, ID cards, microfiche, and audio cassettes.

Shred Size: 1/8" x 1-1/2" Cross-Cut
Throat Size: 17"
Capacity: 70 - 80 sheets
Motor: 5.33HP Actual, 220V
Weight: 419 lbs.
Dimensions: 30"W x 22"D x 63"H

intimus® PRO
Professional Data Shredders

GOING GREEN

The **intimus® 315** is the first shredder to combine the goals and processes of sustainable waste paper management and information security. It offers an easy-to-empty solution by combining a shredder with a wheeled standard waste bin. The result is a continuous flow: from shredding over collection to recycling.

Shred Size: 3.8mm x 36mm Cross-Cut
Throat Size: 12"
Capacity: 23 - 25 sheets
Motor: 2.41HP Actual, 110V
Weight: 161 lbs.
Dimensions: 31"W x 36.6"D x 51.2"H

GOING GREEN

The **PacMaster™** is economical and reliable! It converts empty corrugated boxes, which cost money to dispose of, into **FREE** large-volume filler material suitable for packing even sensitive goods for transport. Best of all - It's Easy To Use. The working surface has standard size guides marked on it so that accurate cutting is guaranteed. With one pass of the corrugated the excess is trimmed off and the packaging material is formed.

Shred Size: 5/32" x 4-3/8" Grid-Cut
Capacity: 2 sheet (2-ply corrugated)
Motor: 220V / 60Hz / 3 Phase

Feed Width: 16-3/4"
Weight: 386 lbs.
Dimensions: 18.75"W x 27.25"D x 39"H

Everything under control

i-control® is the heart of the technical concept, and the function control – a visual information center ensuring unrivalled ease-of-use by the operator. On all models except for the 20CC3

Segregation of materials

2x2

Clear separation of shredder waste is vital for environmentally-friendly disposal: 2x2 cut & collect reduces the load on the cutting units and simplifies the separation of the shredded material with the use of a practical basket-in-basket solution. Available on all models, except for the 20 and 175 series.

Optimal efficiency

DLS

DLS detects the paper volume as it is fed into the cutting unit. The result of this measurement is communicated to the user by changing colors, like traffic lights, of a light strip in the paper feed area - standard on the intimus® PRO 45,60, 90, 120, and 175 series.

Silent operation

Silentec®

Courtesy of Silentec® - shredding has never been so quiet. intimus® PROdata shredders rank among the quietest models in their class.
